

STEAM GENERATOR

STEAM BOX INDUSTRIAL

Body material

Stainless steel AISI 304 (BA)

Boiler material

Stainless steel AISI 304

(with interchangeable heating element)

Boiler volume

11 L - 12.5 L - 14 L

Tanks

Water: 20 L | Det: 20 L

Maximum output

II - 14,6 - 21,8 - 29 - 36,2 kW

Boiler output

10,8 - 14,4 - 21,6 - 28,8 - 36 kW

Steam production

29 I - 388 - 582 - 776 - 970 g/min.

17,5 - 23 - 35 - 46,5 - 58 Kg/h

Power supply

3~ 400 V - 50/60 Hz

Steam T°

183° C

Detergent T°

90° C - 160° C

Power cord

8 m

Weight

96 Kg (36kW)

Packaging

115×65×125 cm

APPLICATIONS

Three-phase steam generator for usage in the industrial sector, with a stainless-steel body (watertight protection IPX5), unlimited steam autonomy thanks to the automatic refilling system with either an internal water tank (electromechanical water level control system inside the boiler – True TempTM) or directly with a water mains connection. Possibility to inject detergent or hot water together with steam. The steam generator's front panel is equipped with an electric console with commands for a timer, a thermometer and a pressure gauge; the digital display will advise the user about the necessity to proceed with the boiler maintenance.

TOOLS
